Phase One: **Orientation**

(15 minutes)

1. Gather at your region's table
2. Introduce yourself (name, role, affiliation)
3. Discuss questions and write ideas on pads
4. Put your ideas on the wall under your region and next to the appropriate question

	Northern	Northwest	Central	Eastern	Southwest
Q 1	 	 		 	  
Q 2		 	 	 	 
Q 3	 	 		  	  

Phase Two: **Circulation**

(You will have about 20 minutes per rotation)

1. When you hear this sound 
 - All **DIS** move to the region on your left
 - Introduce yourself
 - Continue discussion
2. When you hear this sound again 
 - All **nurses** move to the region on your right
 - Introduce yourself
 - Continue discussion

Phase Three: **Collaboration**

(30 minutes)

When you hear this sound

- Return to your region's table
- Continue your original discussion, share new ideas
- Select a spokesperson for the group
- Present your region's perspectives
- Discuss with the room

Discussion Questions

1. What is the most helpful information to have about an existing or potential client before you contact them?
2. What are the most challenging parts of educating clients about successful treatment? How do you overcome these challenges?
3. What methods are most successful for getting reluctant people to test?

Thank you for participating!

We hope you had a chance to:

- Meet someone new
- Share an idea
- Learn something interesting
- Have a little fun 😊
